Seremedi's CareScriptions® mobile patient care platform stood strong during Hurricane Harvey Thanks to Microsoft Azure

Houston Digital Health Leader supported clients throughout Hurricane Harvey

Houston, TX, September 12, 2017 - Seremedi, Inc., the digital health leader and resident company of JLABS @ TMC, survived Hurricane Harvey without service interruption. Seremedi, Inc., while being powered on the Microsoft Azure platform, delivers the CareScriptions® solutions into major hospital systems, enabling care management teams to collaborate with their patients.

CareScriptions is built on the trusted and certified Microsoft Azure platform which includes a variety of technical safeguards enabling Seremedi to deliver their Software as a Service, CareScriptions® to their customers during Hurricane Harvey with zero down time. Microsoft Azure provides security, privacy and scalability enabling customers of all sizes to meet their compliance requirements.

While Hurricane Harvey was hitting Texas, Kim Bond Evans, CEO, of Seremedi was confident CareScriptions would provide uninterrupted usage for our customers. "Since CareScriptions is powered by Microsoft Azure, our customer's patient and care team driven software would remain unscathed by the storm. Our customers always come first at Seremedi."

As part of Seremedi's #HoustonStrong campaign, we are donating our time, energy and efforts towards rebuilding Houston.

About Seremedi

Seremedi is a Houston-based digital health leader and resident company of JLABS @ TMC. Its CareScriptions® mobile patient care platform enables care teams to provide continuous care to patients at critical points during the care continuum by connecting patients and care teams in real-time, increasing visibility into the patient's health status and enabling the best outcomes while minimizing avoidable risks and costs. More informed, invested and connected patient-physician teams working together result in better outcomes for the patient, and a decrease in complications, readmissions and costs. For more, see www.seremedi.com or follow @CareScriptions. #MobileHealth #Mhealth #PatientEngagement
